STORY OF THE NEW BIRTH - 1 Hour

What did it really mean for us to be born into a new family? Trusting God for salvation can remain an abstract term for most Christians. In the meantime, they fail to realize that they were given a heavenly Parent to re-parent them. All the places where their growth was stunted, emotionally and spiritually, God can repair and heal.

How does a child of God live as a much loved daughter instead of feeling like an orphan, getting her needs met from people and achievements? Christine is very passionate about this session. She outlines the ten profile characteristics of an orphan, then a daughter. Women identify where they've been stuck, some for a lifetime. She shows them how to access the healing of God in practical, and permanent, ways.

COUNTERFEIT STORYTELLERS - 1 Hour

There are four versions to everyone's life story. Their own version of life's events, what they've been told by others, Satan's hopeless rendition, and finally, God's life-giving version. How do we know whose words to believe? And how do we know if we're believing the wrong version?

This important hour session helps women re-interpret the events of their life and learn how to let God be their storyteller. Their story becomes one of redemption instead of senseless tragedy.

LONG LIVE THE KING! FORGIVENESS OUT OF THE BOX - 1 Hour

Nothing is harder than forgiving and it's because we misunderstand the biblical directive to 'forgive as we have been forgiven.' Christine presents this difficult teaching by first examining what forgiveness is not; removing the barriers that many of us experience in our struggle to learn to forgive.

Come! Experience the mysteries of this topic like you're never heard them before.
